

CONVICTED FOR DRAFT EVASION

Judge Landis Sentences Carl Fenska To Year In House Of Correction

In Judge Landis' court in Chicago Wednesday Carl Albert Fenska, formerly of this city, now of Chicago was found guilty of failure to register under the selective service law. The motion of his attorneys for a new trial was denied and he was sentenced to one year in the house of correction.

According to press reports of the trial testimony showed an effort on the part of Mrs. Fenska, now Mrs. Gust Friday of this city, to change the date of her son's birth from 1886 to 1885. It was brought out that she went to Rev. John DeJung, pastor of the German Lutheran church in this city and induced him to change the confirmation records of his church to conform with the story of her son's birth. On the stand Mrs. Fenska said that she did not know it would change his status with reference to the draft law. She said she only wanted the record to be correct. She stated that she would not care if Carl went into the army.

Rev. DeJung testified that he changed the date of Carl Fenska's birth in his record book from 1886 to 1885. He said that Mrs. Fenska came to him and said there was a mistake. She said the date was incorrect and wanted it corrected. This was on or about July 24 or 25 last.

It is not considered probable by government officials that any action will be taken against Rev. DeJung although definite decision on this point will not be made until after the district attorney and his assistant have conferred.

Several witnesses from Rhinelander were called on the case, including Chief of Police Maurice Straub, Supt. W. P. Colburn of this schools, S. B. Gary, Mrs. Jennie K. Dean and Mrs. Fred Tegatz, an aunt of Carl Fenska.

School records were produced concerning various periods in the young man's childhood and these give his year of birth as 1886.

FATHER AND SON WEEK

Every city in America is going to celebrate father-and-son week, Feb. 11th to 17th. Mayors in every city are being asked to make a public proclamation for this occasion. The boys in all cantonnments will be asked to write a letter to their fathers during that week and a speaker will be in every camp to talk on the relationship of father and son.

PEACE FATAL NOW SAYS WELLER

"If we stopped and demanded peace now, it would mean that for centuries to come, the name of liberty would be blotted out from civilization I would rather have my sons die on the battlefield than come back to a heritage of slavery."

This is Bishop Reginald Heber Weller's view of peace talk now. Bishop Weller, who is head of the Fond du Lac Episcopal diocese, has three sons commissioned as officers and now at the front. He believes that peace lies in the dim distance and it is a fight to the finish now.

"I wonder if the American people realize that we are engaged in a great war," he said. "Do we realize that if we are to stem this tide of invaders we must have 600,000 men in the trenches by spring? That we must send them over at the rate of 10,000 a day? Are we living on less than we did a year ago? Are we wearing our old clothes and conserving our food that the boys in the trenches may have enough? The food and clothing wasted in this country would feed and clothe Belgium. When the fuel order came out recently one splendid thing it accomplished was to wake some people up to the fact that we are earnestly engaged in this war."

BILLY M'RAE IN WASHINGTON

Wm. McRae of this city, who is a member of the 20th Engineers, writes his mother, Mrs. E. McRae, the following letter from Washington, D. C.:

Feb. 1, 1918.

Dear Mother:— We got here Thursday night after a trip thru some of the finest and most beautiful country that I ever saw. All Thursday afternoon we rode thru the "Blue Ridge Mountains, Virginia, and passed thru Harper's Ferry, where John Brown was so active in his day. It was a wonderful trip and I enjoyed every bit of it. And now we are in Washington at Camp American University. We are on the street car line and it is only about fifteen minutes ride from the Capitol. It really is too good to be true. Never thought I would ever get this far east. It is all very lovely and I am not able to complain as yet. We are sleeping in tents and it isn't so warm as I thought it would be, but they can't kill me no matter how they try.

Well Ma, Don's regiment is just up there. I am sure you know you think of that. And I have just received a pass to go to see him. I have to find out if the Pecor boy got a pass, and if he did, Lloyd Cain, he, and myself, are going tomorrow noon to see our brothers. Won't that be fine? If I have enough time there we will have a picture taken together. Can't wait for the time to come so that we can go. It sure will be a glorious event.

Just the other day Albert Pecor was down at the depot and he ran right into Dr. Schiek and Al. Lytle and they took him over to their troop train, and there was Harris Lewis, Paul Gaston, Geo. Gibson, Milton Braeger and the whole hospital corps. Guess Wisconsin and Rhinelander are pretty well represented out this way now.

I will be expecting to hear from you soon Ma. Be sure and write. I will be waiting. My address is, Co. D, 10th Battalion, 20th Engineers, American "U", Washington, D. C. From your son, Bill.

W. & N. TAKES OFF CRANDON TRAIN

The passenger train on the Wisconsin and Northern arriving in Crandon at noon and leaving at one o'clock will be discontinued beginning Monday. Passengers hereafter will have to take the freight which will run as usual.

The Milwaukee evening train connecting with the Soo at Pembine, which was recently discontinued, has been put back on the road so one can make the evening trip south to Milwaukee or Chicago over the Soo as previous to the change.

The report that one train will be taken off the Northwestern line between here and Pelican is false. An extra logging train is running nights on that branch at the present time—Crandon Republican.

ANTIGO CHIEF MUST STAY OUT

The decision of Judge Ried of Wausau, who was called in to try the case of Warren C. Hill, who was removed from the police force by the Police and Fire commission after a hearing, confirms every charge preferred by the commission against Hill and sustains the decision, thus making permanent the removal of Mr. Hill.

The commission, upon application of F. J. Finucane, city attorney, preferred three separate charges against Hill; having accepted \$10 in consideration of omitting arrest of one Isbell, of being drunk while in police uniform, and extorting money by false representation. The court said that a full and complete hearing had been given Hill and there was nothing in the evidence to show that the commission's decision in the matter was not right, consequently the findings and the decision should be confirmed.—Antigo Journal.

MAJORITY OF GERMAN ALIENS YET TO REGISTER

Assistant Police Chief John O'Brien, who is one of the officials in charge of the registration of German aliens at the city hall, stated that 48 was the number of registrants up to a late hour this Thursday afternoon. Friday and Saturday are expected to be busy days for the registration officers, when the bulk of the registrations will be made.

The enforced registration of German aliens now going on throughout the country is affording many of the American public an interesting insight in the operation of our naturalization laws. All the week officials at the city hall have been besieged by inquiries as to who is and who is not a citizen of the United States and who is obliged to register. Persons interested in extending naturalization to resident aliens have been enabled as never before to study the reasons why many persons, residents of this country for almost a life time have failed to become citizens.

The registration of German aliens began Feb. 4th and is to continue for six days. The work is being done by the police department in cities having a population of 5000 or over and in other cities, villages and towns by postal authorities. On account of the absence from the city of Chief of Police Straub, registration in Rhinelander is being conducted by Assistant Chief O'Brien and Sheriff Hans Rodd. Postmaster Matt Stapleton is doing the work for residents of the nearby towns.

Only persons born in Germany or who are subjects, denizens, that is partly naturalized, or citizens of the German Empire and not fully naturalized in the United States are required to register. A person born in this country of German parents, who were not naturalized, is not within the provisions of the law according to the Attorney General of the United States. Citizens and subjects of the government of Austria-Hungary need not register although our government is at war with Austria. The explanation of apparent discrimination seems to be that Austrians in this country have been indifferent regarding the war and have been little concerned in the diffusion of enemy propaganda here.

One young man appeared at the city hall this week and inquired whether he was obliged to register. He was born in Germany of Russian parents and left there going to Russia at the age of nine months, his

parents never having been naturalized in Germany. He never lived in Germany again. It was decided that he came within the application of the law.

A person required to register must procure four recent photographs of himself, unmounted, and not larger than 3x3 in size. He must then cause to be filled out three registration affidavits, giving his name, and places of residence and occupation since Jan. 1, 1914, and many other facts regarding himself. These affidavits may be written by any one but must be signed before the registration officer, who then writes a complete description of the registrant and takes a print of every finger on each hand. A photograph is then pasted on each affidavit and each signed by registrant across the face. The registrant is furnished with a card showing he has complied with the law and the fourth photograph is pasted on this card. Copies of the affidavit are subsequently filed with the department of justice.

Another important feature of the law is that requiring that no alien German shall leave his registration district without a permit and shall not change his residence in his registration district without notifying his registration officer. Also, all German aliens are now prohibited from approaching government buildings and other prohibited areas without having first obtained a permit. These permits are issued by the U. S. marshal to all who can show that they are properly qualified to be granted those privileges.

The work is being carried on with the same smooth efficiency that has characterized all government work conducted in this city since the outbreak of the war. It is hoped that every one will register who is required to do so. Many loyal German residents feel hurt and embarrassed at being obliged to register, but they should consider that it is caused by acts of disloyal Germans, only, and that they are showing their loyalty to the country by obeying its laws and are giving further proof of their peaceful dispositions.

BUSINESS NOT AS USUAL

(Contributed)

When war was first declared, the call went out to the country, "Keep Business as Usual." At that time it was feared that the war scare would have a depressing effect upon the industries of the country and cause business to "steer close to shore." Ordinarily this might have been the result, but in the present instance the very opposite has been the case. Instead of curtailing business in any direction, the war has given such a stimulus to business in all lines that the American people today are more prosperous than at any time in their history, and this in the face of the huge sums they have been called upon to contribute to the various war activities.

Now the slogan is not business as usual, but business NOT as usual—greater than usual, with more vim and vigor than we have ever before put into it. We are called to make every minute and hour of our days to COUNT. The manufacturer is urged to speed up production, the farmer is urged to multiply the yield of his acres. Every mill and factory and shop in the land is urged to give its best efforts to swelling the volume of business—because only by keeping the volume up to the highest possible mark can we be enabled to respond to the tremendous demands that are being made upon the resources of the country.

We have been accustomed to boast of the immense NATURAL and UNDEVELOPED resources of the country. The time has come when those resources must be DEVELOPED. An unopened coal mine must be opened and its treasures thrown on the market. Mineral deposits must be developed and their contents given to swell the total of materials. Valuable tracts of timber that are needed for manufactures must be laid under the ax and the saw. The RESOURCES of the country must be brought into USE.

While prices of all commodities are high, the country has money—millions and billions of it. Almost any kind of a workman in any branch of industry can command a decent salary, and good workmen are in demand at wages never before dreamed of.

But in order that this may continue, ALL must work and earn and spend. The purse strings must not be closed on the dollar that is in hand, but it must be spent freely that a crop of dollars may be the result. What if raw materials are high? The world is crying for the finished product at figures even higher. The demand in all lines is, supplies, supplies and more supplies. There is no limit to the demand except the capacity of the country.

Let the order be "Full speed ahead till the war is won."

DARROW CANCELS SPEAKING DATE

Hon. Clarence Darrow, famous Chicago attorney and friend of labor, who was engaged to give a patriotic address in this city Saturday night, wired District Attorney A. J. O'Melia today that owing to important legal matters, he is unable to fill the date.

There is a possibility that Mr. Darrow may be secured for a speech here later in the year.

D. F. RECKER TO ASSIST HOOVER

D. F. Recker of this city has been named food administrator for Oneida county. Mr. Recker will have control of the food situation in Oneida county during the war and will see that all orders of the federal food administration are respected. The appointment of Mr. Recker is looked upon with favor. That he will make a capable official is generally conceded.

MANY AT MASQUERADE

The annual masquerade ball of the F. R. A. at the Armory Wednesday night, was largely attended and proved a very enjoyable event. Many were masked and some clever costumes were revealed. The music by the Oneida orchestra was up to the usual high standard.

ROLLER IN NEW YORK

George Roller is in New York City representing the employees of the Rhinelander Paper company at the national convention of sulphite and paper mill workers. Before returning here, Mr. Roller will visit the members of Company L who are encamped near New York.

BREAD RATION IS NOW TWO OUNCES

A two-ounce bread ration is ordered by the food administration for patrons of hotels, restaurants and dining cars. This allowance is about that now observed in England.

Telegrams went out today to the food administration's hotel representatives in every state, designating the new rations. Not more than two ounces of wheat bread may be served to any one at any one meal except that when rolls or bread made from corn, oatmeal or bran are served and when one kind other than wheat bread is ordered a portion may consist of four ounces. Rolls may not weigh more than one ounce each.

Public eating places are now licensed under the new bread regulations, and the bread ration rule is issued under this authority. Hotel representatives have been instructed to see that immediate observance is given in hotels for Monday and Wednesday as wheatless days, Tuesday as a meatless day, Saturdays as a porkless day and that there is one wheatless meal and one meatless meal every day.

STICK UP MAN SENT TO PEN

A cutting scrape in Woodruff a few weeks ago had its culmination in Judge H. F. Steele's court, Monday, when Ever Grandon of Minocqua was sentenced to two years in Waupun prison.

Grandon and a man named Sewitzki became involved in an altercation and during the encounter Grandon slashed Sewitzki with a pocket knife. Before Judge Steele Grandon admitted his guilt.

TRAPPERS ARE FINED

In Municipal court this week Fred Bowles of the town of Crescent and Sherman Walker of the town of Newbold were each fined \$50 and costs for trapping without a license. Steve Gwidt, conservation warden of this district, made the arrests.

NO RHINELANDER MEN ON TUSCANIA

Washburn, Rice Lake, New London And Chippewa Falls Men On Board

According to latest advices, the loss of life in the sinking of the Tuscania was very small compared with the number stated in early dispatches.

That no men from Rhinelander were on board the ill fated Tuscania is indicated by the latest reports of the disaster.

A late dispatch from Madison states that estimates made by Colonel Salsman, just back from Camp MacArthur where he has been the past three months, based on telegraphic reports, are that only 101 lives were lost in the Tuscania sinking.

Col. Salsman says that the largest number on board were regular United States army men, and he does not think there will be many casualties from Wisconsin.

The 107th Engineer train was made up of transfers from engineers and from infantry; men who had sufficient training to be valuable as engineers. This train was a mixture of Wisconsin and Michigan troops and all told numbered about seventy men.

The Fourth and Sixth Wisconsin infantry of the 107th military police was made up as follows:—

One company of the Fourth Wisconsin, recruited from Stoughton, and the company of the Sixth Wisconsin recruited in Washburn. The Stoughton company contained a platoon from Edgerton.

The Fourth, Fifth and Sixth Wisconsin infantry in the 107th supply train was recruited in Chippewa Falls, Kenosha, Wautoma, New London, Rice Lake and Marshfield.

"Apparently included as passengers on this boat was the 107th field signal battalion of the 32nd division," said Col. Salsman. "The Wisconsin men in this section were mainly recruited in Milwaukee and the others in Michigan."

PARKER RESPONDS TO GOVERNOR

F. E. Parker, Oneida county highway commissioner, made the response to the address of welcome by Governor Philipp at the seventh annual road school of the Wisconsin highway commission in Madison this week.

This gathering of road experts was one of the greatest ever held in the middle west.

The program of the road school stated that "1918 will be road and bridge maintenance year in Wisconsin," and the topics of discussion were devoted to the importance of the maintenance problem, especially the system of patrol maintenance, an innovation in this state.

Among speakers on the program were J. H. Mullen, chief engineer of the Minnesota highway commission, and F. R. White, road engineer of the Iowa highway commission.

NABS VIOLATORS

Steve Gwidt, conservation warden for this district, has been exceedingly active the past few days and has caused the arrest and conviction of four game law violators. Mr. Gwidt is constantly attending to the duties of his position and offenders who escape his clutches are very few.

The Oneida County Fish and Game Protective Club, which Mr. Gwidt organized, is soon to hold a meeting here at which addresses will be made by men prominent in the conservation of wild life. The date of this meeting will be announced later.

MOURN LITTLE SON

Mr. and Mrs. A. W. Pyllik, who reside on the west side, are mourning the death of their little son, which occurred Tuesday morning after a brief illness. He was four years of age.

The funeral was held this afternoon from the home on River St.

Vernon county was originally named "Bad Ax" after a stream which flows through it, near the mouth of which Black Hawk's band of followers was destroyed in 1832. Because of the unpleasant associations of the name the inhabitants of the county were moved to change it "Vernon," the new name adopted, was supposed to carry a suggestion of the greenness of the wheat fields, and, in addition, of Washington's estate at Mount Vernon.

In St. Louis there is one ward that is full of breweries. In a recent election the local option question was up. After the election the clerks were counting the votes. One was calling off and another taking down the option votes. The first clerk, running rapidly through the ballots, said "Wet, wet, wet, wet." Suddenly he stopped. "Mein Gott!" he cried "Dry." Then he went on: "Wet, wet, wet, wet, wet." Presently he stopped again and mopped his brow. "Himmel," he said, "the son-of-a-gun repeated."

STAY OF INDUCTION

An order of the provost marshal, received from Governor Philipp, advises members of the local exemption boards "that for the purpose of facilitating action by the president in the granting of stays of induction in meritorious cases under provisions of section 113, Selective Service Regulations, the provost marshal's office will welcome an expression of opinion from any member of a local board in any case where it appears that a registrant is likely to be called to service in the immediate future and where it further appears that if called a situation of peculiar hardship is likely to arise which would not be substantially remedied by registrant's subject to discharge from camp in the event of favorable action by the president upon his appeal."

WHEN YOU HAVE A COLD

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, Pana, Ill., writes: "Our five-year old son Paul caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

REDUCE PAINT SHADES

To conserve tin, linseed oil, and other ingredients of paint and paint containers necessary for war use, manufacture will be limited to 32 shades of house paint after July 1. Some firms are now making 100 shades of this class of paint.

Enamels will be restricted by the manufacturers to 8 shades, floor paint to 8, roof and barn paint to 2, shingle stains to 12, carriage paint to 8, architectural varnishes to 10. Half-gallon cans will not be used, and some other sizes will be discontinued.

ABOUT CONSTIPATION

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the cure was to take one or two of Chamberlain's Tablets immediately after supper.

As we go to press our attention is called to an article in our last issue concerning the Red Cross benefit dance to be held at Hazelhurst which is supposed to have questioned the loyalty of Hazelhurst. We have been requested to "counter-balance" the same with an article this week.

The article, in part, read: "Up to the present time the vicinity of Hazelhurst has not made a united effort to demonstrate its loyalty to our government." We meant that Hazelhurst had not launched a Liberty Loan campaign, a Y. M. C. A. campaign or a Red Cross campaign. The words "united effort" should convey this meaning. We realize that Hazelhurst has given liberally to the above calls. Far be it from us to say that she is disloyal. But if our readers got an impression from the article that she is disloyal we wish to apologize for it and are thankful that we have had the opportunity to do so.

Many Rhinelander People Have Kidney Trouble And Do Not Know It Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular?

Likely your kidneys are at fault. Weak kidneys give warning of distress.

Heed the warning; don't delay—Use a tested kidney remedy.

Read this Rhinelander testimony.

Mrs. D. McIntyre, 833 Mason St., Rhinelander, says: "My kidneys were weak and I had attacks of backache. Often I got dizzy and nervous and mornings when I got up, I felt all tired out. I finally got Doan's Kidney Pills at Reardon's Drug Store and was greatly benefited. The tired feeling and pain went away and the kidney weakness was also corrected. I have never been severely troubled since."

MAKE CITY BIGGER

Make Rhinelander a better city and it will get bigger itself. One way to do this is to build more houses. Many people are looking for houses to rent or buy every day. The time to help is now, when your help will be the most good.—Secretary E. O. Barstow in Advancement Association Bulletin.

IN THE TENTH MONTH OF WAR

It is now announced that "the first move" is to be taken to establish a war labor administration which will formulate a broad labor policy for the duration of the war.

Thus we learn that in the tenth month after our entrance into the war the "first move" is to be taken to deal broadly with the basic requisite of war preparation—labor.

No comment can be ventured upon that statement. No evidence, however buttressed with demonstrated fact, could more clearly disclose what is the matter with our conduct of the war. For months the conditions of labor have been the most serious weakness in our situation. Even when we crossed the threshold of war we had the experience of the British to forewarn us. But it takes ten months of painful and costly experience of our own to bring us to the point of facing the whole problem and making the "first move" toward the establishment of a broad labor policy.

This is the outstanding characteristic of the administration's habit. It refused not only to prepare against war and even to think of preparing against it. Since war became an accomplished fact it has failed to see ahead. When criticism is tardily and reluctantly forced from patriotic men by intolerable difficulties and embarrassments this criticism is resented or waved aside with the assurance that these difficulties and embarrassments were unavoidable but will be corrected henceforth.

Mr. Baker's statement on Monday was not a demonstration of efficiency but an exposition of what follows a failure to think ahead. We devoutly hope it precludes a fundamental change in the conduct of the war department, but this must be a faint hope until the change is demonstrated. The coal situation and the inter-related railroad situation were the direct and inevitable results of the lack of practical forethought. The dangerous deficiencies in the labor situation have been evaded and tinkered with and only now do we hear of the "first move" toward a labor policy. The confusion, waste, and backwardness of our shipping program tells the same story, the story of want of comprehensive planning, of foresighted action to meet inevitable conditions.

Mr. Baker said the other day that whenever he found mistakes he corrected them. This is not enough. What is required of our government is not correction but prevention, and this it cannot assure us until it plans ahead of mistakes and not after they are made. "War," as Mr. Wilson recently has said, "is a grim business," and we would add that it brooks no parody. It accepts no explanations.

The case against Mr. Wilson's administration is that it takes on the creative side exactly what is so enthusiastically claimed for it on its fiduciary side—namely: provision. It has blundered on executive problems because it did not foresee and plan.

The case is rudimentary in principle for all executive organization and it is being proved up to the hilt by conditions too alarming and too painful in immediate effect to

be hid by optimistic generalities. The excessive concentration of war work in the northeast, the restriction of coal output at a critical period, the congestion and paralysis of traffic with its consequent wide demoralization of business at a moment when the huge energies of the country should be at their maximum, the actual reduction of labor efficiency when its efficiency should be at its highest, the delays in ship construction and in military equipment, all this composes a picture of frustration and ineffectiveness that must alarm and discourage our allies and give new assurance to the enemy.

The necessity for a war cabinet, or superior war council, or grand board of priorities which shall bring order out of the complicated claims of our varied war and peace activities and plan to keep them adjusted will not wait upon the leisurely optimism of the administration. Modern war is a gigantic synthesis. If we are to figure in this war, except as a pretentious futility, we must achieve this synthesis. The central fact of our situation to day, nearly a year after we entered the war is that it is fatally lacking and that the government refuses even to admit the lack.—Editorial, Chicago Tribune.

CITY CONTRIBUTES TO DEFENSE WORK

Council Votes \$250 To Oneida County Council Of Defense

Acting on the resolution of Alderman William Gilligan the city council at its regular monthly meeting, Tuesday night, unanimously voted to give the county council of defense \$250 to aid that organization in maintaining its activities.

On motion of Alderman Thomas Wight the petition of Irvin Cole for license to conduct a pool and billiard hall at 165 Stevens street, in the building just vacated by Nick and Urban, was referred to the council committee on license. Mr. Cole, who is the proprietor of the Arlington Cafe has already purchased his tables and fixtures. No action will be taken on the license until the March meeting of the council.

A petition for a sewer on S. Baird Avenue was turned over to the Board of Public Works.

It is estimated that \$250 would be required to make needed improvements in the city hall building and Alderman A. C. Danielson suggested that this work be commenced soon.

Alderman Wight resigned as purchaser for the fire department and Mayor Clark appointed Alderman Danielson to succeed him.

Mayor Clark named the following to serve on the election boards in the various wards:

FIRST WARD—
Inspectors—Olaf Goldstrand, W. F. Wilcox, and Paul Belkey.
Clerks—A. B. Mangerson and Alfred Holm.

Ballot Clerks—Mike Sullivan and Gust Swedberg.

MRS. ESCHWIG IMPROVING

Val Eschwig returned to Rhinelander Friday night after a two months trip with his wife, who has been very ill for the past nine months. They spent most of the time in Chicago where she was treated by the best physicians. After a few weeks treatment she improved so much they visited her aunt, Mrs. Scott in LaFayette, Ind., then went to Portage to visit Mr. Eschwig's daughter, Mrs. Fred Brandt, then to Cameron where Mrs. Eschwig will stay with her sister, Mrs. L. H. Chafee for a month. While she is much improved in general health, her sight has not returned sufficiently to enable her to see much, but it is believed that in time her vision will be fully restored.

THRIFT STAMP SALE REACHES OVER \$1200

Chairman A. J. O'Melia of the Oneida County War Savings Stamps Campaign Committee, said late Thursday afternoon that over \$1200 worth of Thrift Stamps had been sold in Rhinelander. Before the close of the campaign Saturday night it is estimated that the sale will total over \$2000. This amount should be reached easily.

Boy Scouts and high school pupils have through their untiring activity been largely responsible for the large stamp sale here. The young people entered into the drive with intense enthusiasm, and much friendly rivalry was exhibited in pushing sales.

Chairman O'Melia says that a \$1000 Thrift Club is now being organized among the business men. This club is composed of men who pledge themselves to purchase during the year Thrift Stamps amounting to \$1000 maturity value. This represents an investment of about \$926. The club promises a large membership.

The hourly blowing of mill and factory whistles each day has constantly kept the public reminded of Thrift Stamp week.

Chairman O'Melia expresses himself as very well satisfied with results of the local drive up to date. Encouraging reports are also coming in from the towns of the county.

HONOR LINCOLN NEXT TUESDAY

Lincoln's birthday, Feb. 12th, falls on Tuesday next. School and community celebrations will be held throughout the country under the auspices of the National Security League. The League has organized this nationwide observance through its 280 branches, scattered in all parts of the country, and its various State Departments of Education.

Many states celebrate Lincoln's Birthday as Grand Army Flag Day. In some states the day is a school holiday, and in all states where the day is observed exercises are held in schools under the auspices of the G. A. R., Women's Relief Corps, etc. The Security League's idea is to give a special prominence to these exercises this year and to organize celebrations where they would not otherwise be held. The League has met with a ready response in its efforts and has been enabled to promote Lincoln's Birthday celebration in three states where the day was never before observed, South Carolina, Mississippi and Texas.

Evening service at 7:30. A patriotic address will be given by the pastor, "What we are fighting against and what we are fighting for."

Prayer meeting on Thursday evening at 7:30, at the home of Mrs. Dedrick, on King street.

You are cordially invited to attend these services. Go to church! The procession moves to church; fall into line! men and women who want to be members of the vanguard note the broadening stream of worshippers entering the church doors. They are part of a great army. They are hearing the call. In clear, resonant tones which speak to their hearts it tell them to go to church! There is an awakening stir from the slumbers which have over which tell us all to go to church. taken so many of us, deadening us to a sense of our religious duties. It tells us that unless we hear God's call, summoning us to His houses of worship, we shall soon be out of touch with our fellow men, for they are heeding the inner voices. Fall into line and attend this church next Sunday.

Rev. Wm. Wilson, Pastor.

A farewell party in honor of Miss Ethel Gethchel was held at the residence of her aunt, Mrs. Sam Perinier, last Thursday night. Miss Gethchel has commenced teaching near Hazelhurst.

CONGREGATIONAL CHURCH

Observe Lincoln Sunday, Feb. 10, by going to church.

At the morning service a specially prepared printed program will be used. In honor of the "Great Emancipator" the sermon will be on "The Negro and American Problem" Thomas Nelson Page has a book called "The Negro, the Southerners' Problem." But in view of the recent migration from the south to the north, it is a problem that concerns every American.

A Lincoln service will be held Sunday evening at 7:30. Miss Jaworth will give a reading taken from that beautiful Lincoln story "The Perfected Tribute." The sermon will be "The Ideals of Lincoln applied to the conduct of the World War."

A cordial invitation is extended to all our services. Make the most of your Sundays. They come only once a week. Come to church.

Charles H. Wicks, Pastor.

Trade at Home

Conserve the Nation's Resources

BE a "Home Town Booster." Get your friends and neighbors to co-operate with you in this patriotic movement.

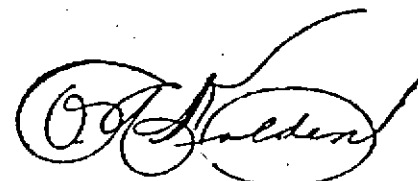

It's your duty to TRADE AT HOME and conserve the Nation's resources. The Government needs ALL the transportation facilities to move troops and food. Do you want to create the impression that you want to "Do Your Bit" by keeping your packages and yourself off the trains which must be used for National purposes?

Spend your money with the home industries and keep the town prosperous. Goods will cost you less; can be easier changed; no interstate transportation taxes; no express or mail charges.

We will be pleased to get what you want if we haven't it—anything you can buy elsewhere we'll sell you for less—it's our way of performing a duty to Uncle Sam and our patriotic "Trade at Home" patrons.

Let us show you how well we can take care of your every personal and household need and save you money, time and trouble.

DEATH SUMMONS HELMER OLSON

After suffering for a number of years from tuberculosis Helmar Olson, a well known resident of the north side, passed away Tuesday morning at his home on Alban street. A short time ago Mr. Olson contracted pneumonia and owing to his frail physical condition, medical skill could do nothing to aid him.

Helmer Olson had made Rhinelander his residence for many years. He was a carpenter and blacksmith by trade and since last summer had worked for Hans Lehne, 12 Thayer street.

He is survived by his wife and two small children. He leaves one brother, Emory Olson, who is also a carpenter, and one sister, Mrs. Hans Lehne, both of Rhinelander.

The funeral will be held from the Norwegian Lutheran church next Sunday afternoon, Rev. Snartemo will officiate. Interment in Forest Home cemetery.

SON'S EFFECTS ARE SENT HOME

Last week Mr. and Mrs. J. A. Mosher of Antigo, received a small square box from France. Its momentary value was very little, states the Antigo Journal, but it was a precious package to the recipients because it contained the effects of their son, Mathews Mosher, who joined the 97th Canadian Overseas Battalion and was killed last June during the advance on Avion, by flying shrapnel from an exploding shell.

The package came from France via Ottawa, Canada, and was accompanied by a letter from the Canadian department of Militia and Defense informing the parents of its sending. Among other things, it contained a wallet and some photos which evidently had been enclosed, for both wallet and prints were torn and perforated probably by the missile which brought death. In place of the gold watch given young Mosher by his father before he left home, a cheap French watch was enclosed with two fountain pens, also his official identification disc. Perhaps the most significant thing was a tiny silk flag, showing that although he fought for another national emblem Mathews Mosher's heart beat first for America.

FIRE AT BOARDING HOUSE.

At noon Friday last fire did considerable damage at the Wonnarstag boarding house on Alban street. The cause of the blaze, which originated on the second floor of the house, has not been ascertained. Both hose companies responded to the alarm.

Taylor, John Skochil, John Braneel.

A mask ball will be given by the committee at the Monico hall Saturday night, Feb. 9. Everybody is cordially invited to attend and have a good time.

W. E. Baldwin was a caller at Rhinelander Friday.

Clyde Curtis has been laid up with a sprained ankle.

L. Dennis is employed as yard switchman here.

Mrs. C. Curtis was a visitor at Elcho Friday.

Miss Mabel White, principal of Pelican Lake school, attended the Red Cross dance here Saturday night.

Mr. and Mrs. John Skochil announce the birth of a baby girl born Thursday.

Miss Grace Lally, supervising teacher, visited our school one day last week.

Mrs. J. M. Taylor was a caller at Rhinelander Thursday.

Miss Cora Hickrodt, Mrs. Fred Tegatz, and Miss Marie Kelly went to Rhinelander Thursday night.

Will Dennis of Ashland was in town Sunday.

B. H. Grant has been appointed chairman of the town counsel of defense and is now busy selling Thrift Stamps and getting Red Cross members.

Hannah Kuehn of Antigo spent Sunday at her home here.

Arthur Leith went to Antigo last week to see his sick brother Malvern, who is reported low at this writing.

Lillian Flannery spent Sunday at her home.

Sunday night Arthur Kuehn was pleasantly surprised at his home. The occasion was his twentieth birthday. Those present were Jack and Forest Greene, Edward Breise, Louis Albrecht, Jas. Kelly, Marie Kelly, Miss Hickrodt and Mrs. Tegatz. Games were played until a late hour when a delicious supper was served. The guests left wishing Arthur many happy returns of the day.

The Red Cross dance given by the teachers, Mrs. Tegatz, Miss Hickrodt and Mr. Albrecht proved to be a great success. Oneida orchestra played and all report a good time.

HEAFFORD

Mrs. Henry Thompson departed for Iola Saturday, where she will attend the funeral of her brother, August Tresness, who died early Saturday morning. He has been ailing for a long time with heart trouble.

John Garber and Olaf Olson drove to Tomahawk Wednesday.

Mrs. Ed. Natsky is on the sick list this week.

Andrew Tresness was called to Iola Saturday on account of the death of his brother, August.

Miss Olga Johnson visited friends in Woodboro Friday, returning Saturday.

Harry Reynold returned home Saturday to spend Sunday with his family.

Miss Lina Jensen visited Miss Olga Johnson.

Mrs. Harry Reynold visited Mrs. John Garber Tuesday.

Mrs. Christ Jensen was in Tomahawk on business Saturday.

Miss Johnson visited the Jensen home Saturday.

Mrs. Eric Olson is on the sick list this week.

Floyd Slater had a hard time to make his trip on the mail route on account of so much snow in the roads.

AVOID CHIMNEY FIRES

Chimney fires have been numerous within the last week and the fire department has had a busy time. Many chimney fires could be avoided if people would use Carbonoid, the new chimney cleaning preparation. Chief Cole expects a shipment of Carbonoid within a few days and it will be for sale at hose house No. 1.

COUNTY OFFICERS PAY NO WAR TAX

The following letter received by County Clerk J. J. Verage from Merlin Hull, secretary of state, is self explanatory:

Department of State
Madison, Wisconsin
February 1, 1918.

Mr. John J. Verage,
County Clerk,
Rhinelander, Wis.

My Dear Mr. Verage:

Recently this department requested an opinion of the U. S. Commissioner of Internal Revenue as to whether or not the officials of counties were exempt from the payment of the government tax on railway fares and telegraph and telephone fees required by Section 502 of the Act of Congress of Oct. 3, 1917, when such county officials were traveling or using wire service, on purely official business.

We are now in receipt of the opinion of the Commissioner of Internal Revenue, as follows:

"You are further advised that the word 'State' as used in Section 502 of the Act, is construed to mean the state government or its political subdivisions. The evidence of the right to exemption prescribed is (1st), the presentation to the railroad, telegraph or telephone company of a certificate certifying that the service to be rendered is in the performance of official duties, and (2nd), the presentation of satisfactory credentials proving that the individual demanding the service is an officer, agent or employee of the government and therefore entitled to this tax exemption."

You will note that to obtain this exemption, it is necessary for the county official to present a certificate, when paying fares or fees, certifying that the service is in the performance of official duties, and also display a satisfactory credential proving that the individual presenting it is a county official.

Yours very truly,
MERLIN HULL,
Secretary of State.

YOUNG FOLKS TO WED

The wedding of Miss Dollie Pecor and Harold Erick will take place next Saturday evening at 7:30 at the home of Mr. and Mrs. W. R. Foster on the north side.

RED ROOSTER HERE

Have you seen the Red Rooster at Sorenson's? He arrived a few days ago and his triumphant crow can be heard above the din of traffic along Brown street. His Roostership comes from France and he is here to advertise the Pathephone, which is said to be the most wonderful talking machine on the market. Every afternoon the proud bird holds a reception to which everyone is invited. A feature of this reception is the musical program on the Pathephone, including classical and popular selections and the latest war songs. Next time you are down town make it a point to see the Red Rooster.

KUPPENHEIMER CLOTHES

One can scarcely open a magazine nowadays but what he is confronted with a large and attractive advertisement for Kuppenheimer clothes—to be exact, "The House of Kuppenheimer." The only place in Rhinelander and Oneida county where Kuppenheimer clothes for men and young men can be purchased is at Hart's. The average tailor is not capable of producing the fit, the style and the distinctive class to be found in a Kuppenheimer garment. These celebrated clothes are worn by fastidious dressers everywhere. You are invited to inspect the line at Hart's. Adv.

RESCUE

Danger! Blow Nose Cautiously

A very large proportion of deaf people owe their affliction to so simple and avoidable a cause as improper blowing of their noses. This seems almost impossible to believe and yet it is the testimony of leading specialists in diseases of the ear. The ear has very few disorders which do not arise in the nose with which it is connected by a sort of blind alley passage called the Eustachian Tube.

You will recall in the construction of a child's drum, there is a small hole in the side to equalize the air pressure on the inside and outside of the head or membrane. If one were to place a powerful pump at this opening in the tow drum and suddenly force a large volume of air inside it, the head would become stretched as a consequence. Repeating this over and over would soon destroy the elasticity of the drum head.

Now, the Eustachian Tube, extending from the nose to ear, has the same purpose as the hole in the side of the drum. The drum proper in this case, is the ear drum, a very delicate membrane. One side of the ear drum is exposed to the atmosphere through the external ear. On the other side, the Eustachian Tube, leading to the nose, equalizes the pressure of air on the inside of the ear drum. Hearing depends upon the vibrations of the ear drum in which it is comparable to the vibrating disk of a telephone or phonograph.

When the nose is blown in a manner which closes the nostrils, air is forced down the internal or Eustachian Tube with sufficient force to stretch the membrane of the ear considerably. After such a method has been persisted in for years, elasticity is destroyed and the ear drum loses its power to vibrate sensitively in response to sounds. Since hearing depends upon this vibration, the individual then becomes wholly or practically deaf according to the extent to which the stretching has progressed.

Noses should be blown gently and never with the nostrils closed, not even one at a time. A child should be taught that making a horn of his nose destroys the drum in his ear. He should know that his capacity for friendship, success in business, enjoyment of many of life's greatest pleasures and privileges depend to a great extent upon his maintaining his hearing and that this is mainly up to him.

Anybody can lead the "Simple Life" if he has plenty of money and all the modern conveniences.—R. W. Helms.

FOR THE WHEATLESS DAY.

There are many ways of serving the ordinary cornmeal mush, but few realize the variations which may be carried out with it.

The custom of packing hasty pudding in granite for molding, cutting in slices, and frying it, is so well known and practiced that it need but be mentioned. A batter pudding similar to Yorkshire, but prepared from cornmeal is frequently served with roast pork. Put a cupful of milk, a fourth of a cupful of cornmeal and a half a teaspoonful of salt in a double boiler until the milk and meal has made a thick mixture. Cool and stir in two well-beaten eggs. Grease the gem pan well, allowing to each pan a teaspoonful of the fat from the roast. Bake in a moderate oven, basting occasionally with the fat from the roast.

EAGLE RIVER

(Eagle River Review)

Mrs. W. H. Bomier, Miss Helen Strong, John Benson and Francis Johnson are among those whom the measles have possession of this week.

H. Hutchins now reads the Review at Calvary, Wis., according to instructions from him to mail his paper there where he is employed in the C. & N. W. station.

Mrs. Belle Silvera went to Chicago Wednesday to spend a couple of months while doing some portrait painting for which she has several commissions.

County Highway Commissioner, J. T. Nemacheck and Wm. Saltzberger, one of the county highway committee, left today for Madison to attend the state road school which opens Monday.

We were pleasantly reminded of Louis W. Hanson, a former resident here, but now of Chicago, this week by receiving his renewal from his daughter, Miss Iva Hanson, and the war poems published elsewhere.

Rev. and Mrs. H. Schmitt returned Friday from Rochester where they had been in regard to the condition of the latter's health and received the welcome assurance that no serious trouble was in evidence.

Mrs. Louise Scheribel went to Manitowish Saturday to return with her daughter Rosalie who recently underwent an operation there.

Mrs. Emil Tassin and children left Saturday for their future home at Des Moines, Iowa. Mr. Tassin started for there yesterday.

Mrs. Joseph Foley Sr. was taken to the hospital at Green Bay Saturday for an operation for an acute attack of appendicitis.

A card announcing the birth of Marjorie Eloise, on Jan. 9, to Mr. and Mrs. C. W. Jonker, Chicago, was received by the Review Saturday.

Fred Sailor came up from Camp Grant Monday for a brief visit with home folks returning yesterday. Fred has been transferred to the machine gun company and also re-

Corn Mush With Fruit.—Wash raisins, dates or figs, and dry in a slow oven. This softens the fruit and dries it on the outside. Add to the hot mush and serve with sugar and cream.

There is no limit to the amount of cheese to be added, and it needs no butter or cream to season it.

Buttermilk Cornmeal Mush.—White cornmeal cooked in buttermilk makes a dish which resembles a cottage cheese in flavor. It may be eaten hot, but is especially palatable served cold with cream. In cooking, allow one part of cornmeal to six parts of buttermilk and a teaspoonful of salt to each cupful of cornmeal.

Cornmeal Mush With Pork.—Cook a pound of lean pork, part meat, part bone, in a little water until the meat may be easily removed from the bones. Remove the meat, cut in bits, cool the broth and remove the fat. Reduce the broth to a quart, or add water to make this amount, and cook a cupful of cornmeal in it. Add the finely chopped meat, and season well. Pack in a granite pan to cool. Cut in slices to fry. Beef or any kind of meat may be used in place of pork.

A cupful of soaked, shredded codfish added to mush and egg, and made into balls, and fried in deep fat, takes the place of the potato in the balls. Use two cupfuls of mush to one of codfish.

CLEARWATERLAKE

We are glad to report, that many that were on the sick list are better this week and able to be out again. We are still in the grip of zero weather; 20 below.

Mr. Bruso and some new neighbors moving in, barely escaped with their lives, while unloading a car of furniture from the siding, the car seemed to be too close to the main line track; they had a gasoline engine loaded onto the sled, a little crosswise, so that when a logging train going north, came along, it caught the sled and broke the gasoline engine in one or two places. The engineer stopped the train as soon as he could to find out the damage; lucky no lives were lost of neither horses nor men.

H. P. Hanson bought a few tons of rutabagas from Howard Moses to feed the swine on J. Higgins' farm. He is paying \$8 per ton.

Carl Blank has been on the sick list for a few days. He was hurt at Boyer's camp by a log falling onto his limb and bruising it, making him lame. In the mean time Carl has a call by the government to appear at Rhinelander Feb. 5 to take an examination for service when called.

Henry Hanson was home from Boyer's camp Saturday to visit his parents, returning back in the evening.

Earl Korth is home from camp, intending to go to Ashland Business College and finish up with a short literary course.

Jim Greenman was home from camp a few hours Saturday; he says it is hard to keep warm this zero weather; work as hard as you may.

Rev. Smith of Eagle River held divine services at Mrs. Lau's place Sunday p. m.

Miss Myrtle Dunn left Saturday morning to spend a day or two visiting her parents in Rhinelander. She may return Monday if the train runs.

We understand that Ralph Kingman reached Louisiana, but may return in two weeks. He found snow as far south as Little Rock. Ralph is undecided as to climatic conditions where to locate at present.

Three pounds of sugar for each individual per month is the latest from headquarters on food conservation. Watch for later reports and be ready to meet them.

The latest is a windmill to saw

wood made by W. H. H. Ingle. It goes like clockwork when the wind blows and beats the hand saw. The pattern will not cost you very much if you should wish to purchase one. Mr. Ingle is an expert violinist, and will give lessons to anyone wishing to learn for the sum of 70 cents per lesson.

GAGEN

Lyle Purdy who was ill last week has recovered.

W. Miller and H. Hauser of Minneapolis transacted business in the village last week.

Mrs. C. Anderson and baby of Hiles were guests at the A. Anderson home Friday.

Verne V. Johnston was a Rhinelander visitor Tuesday.

Glen Hofslund returned to school Monday after a week's absence on account of sickness.

SUGAR SAVING RECIPES

"S. O. S." is the latest call of the national food administration—Save Our Sugar. Americans, sweets-loving as they are, will find the way to saving the needed amount and more, if only the nation's cooks will supply that toothsome something to take the place of dishes that use sugar.

Housewives will want to add these to their stores of sugar-saving recipes. They are supplied by the Home Economics department of the University of Wisconsin. They are also economical of wheat and fat.

Baked Bananas—Cut bananas in halves; lengthwise; sprinkle with sugar and add a few drops of lemon, or spread with honey. Bake in a moderate oven until soft, about 20 minutes.

Maple Rice—3-4 cup rice, 1 teaspoon salt, 1 quart milk. Wash rice thoroughly in several waters. Heat milk in double boiler; add rice, and cook until soft. Serve hot with cream (top milk) and maple sugar cut in fine shavings.

Fig and Date Confection—1 cup

dates, 1 cup figs, 2 cups nuts. Wash and dry fruits. Put them with nut meats through meat grinder. Mix thoroughly and form into various shapes or loaves. These may be rolled in powdered sugar.

Squash Pudding—2 cups steamed and strained squash, 2 eggs, ½ tea spoon salt, ½ teaspoon cinnamon, ½ cup sugar, 2 cups milk. Beat eggs, add sugar, salt, cinnamon, squash and milk. Pour into oiled baking dish and bake in moderate oven until firm. Cool slightly and serve with cream (top milk).

Coddled Apples—6 tart apples, 1 cup corn syrup, ½ cup water, stick of cinnamon, or lemon. Pare and core apples. Boil syrup; add cinnamon or lemon juice, and place as many apples as sauce pan will hold in this. Cook slowly until apples are tender.

Rice Apricot Pudding—½ cup rice, 1 quart milk, ½ teaspoon salt, 4 tablespoons sugar, 1 tablespoon fat, white of one egg, apricot marmalade or other preserve. Cook first

five ingredients in double boiler until soft and thickened. Place in a pudding dish and bake until set. Remove from oven, spread with preserves and meringue made with beaten white of egg plus one tablespoon of sugar. Brown delicately in oven and serve cold.

Famous John L. Appeared In City With Show Troupe May 31, 1899

The death of John L. Sullivan, famous ring general, at his home in Abington, Mass., Saturday, recalls to mind the time when the veteran fighter appeared in this city with his theatrical troupe. The date was May 31, 1899. He was greeted by the largest audience that ever assembled in the old opera house, people coming from all the neighboring towns to see him.

During the afternoon before the show "Jawn L." anchored himself in several buffets about town and accumulated a fair sized cargo of corn extract. When the time arrived to ring up the curtain, Sullivan could not be found. He was finally located reposing on the court house lawn, recovering from his tilt with Kid Rum and was not in an exactly amiable frame of mind. He was loaded into a hack and conveyed to the theater. When he came on the stage he was apparently as sober as the proverbial judge and carried himself through the show without difficulty.

The New North of June 1, 1899, gives the following account of Sullivan's performance:

"A crowd of large proportions witnessed the Sullivan entertainment at the opera house last night. People began to arrive early and it wasn't long before all the seats were filled. The show was of the variety order and abounded with specialties which took well with the crowd. The appearance of John L. on the stage was welcomed by many signs of pleasure. The big fellow played the part of a sea captain and his huge bulk looked well in the uniform of that official. His voice was a trifle hoarse, probably due to the sudden change of climate, and his commands were given in tones that seemed to come up out of the floor. He carried his part, which was not at all heavy, thru without a hitch. The contortion dancers, Rosa Crouch and Millie Bertina, were first class. The comedians, Sanford and Lee, pleased everybody. The illustrated songs by Eli Edwards were well rendered and heartily enjoyed. Darmond, the club swinger, did several especially good turns and won loud applause. The program concluded with the three round go advertised between John L. and Jake Kilrain. The two ex-champions were considerably overweight but they went at it lively and the exhibition was interesting.

The preponderance of fat somewhat handicapped Sullivan but he nevertheless got around on his feet in a manner creditable to a much younger man. The honors were about evenly divided when time was called at the end of the third round. The sale of seats was the largest in the history of the house.

Many years ago Sullivan took his last drink of liquor and became a staunch advocate of temperance.

NOT ALLOWED REWARDS

Under a ruling of the provost marshal, issued by Governor Philipp, local exemption boards and their clerical assistants are not allowed the \$50 reward paid for the apprehension of a deserter. The local board must determine whether or not there has been a desertion under the selective service regulations and must make out a certificate before a reward is paid.

The marshal's order continues: "In view of the above facts, and to allay criticism, which heretofore has been directed against the selective service system because members of local boards or their clerical assistants have claimed and received rewards, it is thought expedient that such persons be precluded from receiving these rewards in the future. It is of the utmost importance to relieve the public mind of any suspicion that persons engaged in the administration of the selective service law are using their official position to derive personal profit from this source."

MAURICE ANDERSON IN FRANCE

Maurice Anderson, son of the late Hans Anderson at one time a leading merchant of Rhinelander, is now a sergeant in the ambulance service in France. A few days ago O. A. Kolden, proprietor of the Peoples Savings Store, received a communication from Sergeant Anderson in which he tendered his kindest regards to all friends in this city.

THREE LAKES DEPARTMENT

Mr. and Mrs. Adam Tomochefsky arrived here from Milwaukee on Saturday. Their little son, who was there visiting their grand mother, Mrs. Karwacki, was suddenly taken ill—and his parents were summoned. The little fellow has much improved at this writing.

Dr. Meyer was down from Eagle River the first of the week to prescribe for the Tomochefsky boy.

E. Uhl was the first registrant to be summoned to Rhinelander for physical examination. Quite a bunch from here are billed to appear during the present week.

Louis Pope has returned from his southern Wisconsin trip.

Rex Wunderlich was in town on Friday and Saturday.

The Royal Neighbors met at the Red Cross work rooms on Wednesday evening and busied themselves manufacturing bandages.

A Red Cross dance given under the auspices of the village school on Friday evening was a grand success. They netted for the Red Cross fund \$35.

The baby of Mr. and Mrs. John Boulikowski is quite ill.

Miss Avis Harper came up from Oshkosh to spend a week with her mother, Mrs. Thurber.

Mrs. Thurber was an Elcho visitor last Thursday.

Al Hafner, the Rhinelander timber buyer, transacted business in town on Saturday. The train service was too slow for Al—so, he walked from Gagen and return. We are pleased to note that Lieut. Edward Hanson is himself again and is getting on nicely with his

training. Mrs. M. H. Thompson who spent a week with her daughter, Mrs. McDonald, returned to Watersmeet on Saturday.

The reports have it that our Three Lakes boys connected with Co. L are on their way east. Good luck goes with you boys.

F. S. Campbell, the northern Wisconsin Potato King, wasn't inspecting potatoes during the past week, but instead was making team trips at 42 below zero and accidentally found time to freeze his nose.

Game Warden Oberholzer was in town on Saturday on official business.

Mrs. Joe Godlewski Sr., has taken up her home with her son George.

Have you bought or signed for some war savings stamps? If not, better fall in line.

Pershing's Order

Listen! Listen! Co. L is coming. Their ships have already hit the splash! They are hitting a hing gait—and cutting the big waves fast. They come prepared to join us—With them in our ranks. We will be able to tell the Kaiser he's got a slim chance. They are a bunch of good old northern sons—So touch up: Tramp, Tramp, Company L is coming—They are welcome here I'm sure—And with them we'll go forth and lick the Kaiser. That's a cinch.

HOW NORWEGIANS CAME TO STATE

Seventy years ago over two-thirds of all the Norwegians in America lived in the then new state of Wisconsin. In a book published recently by the Wisconsin Historical Society at Madison is recounted an amusing story of how the first party of Norwegian settlers was diverted from Illinois to Wisconsin.

"The day after we arrived in the harbor of Milwaukee," records one of the party, "we began to make preparations for continuing our journey when several men from the city came on board the vessel. They asked in what work we contemplated engaging in America. We said we were country people, that we desired to obtain land for cultivation, and that we thought of going to Illinois. 'Go where you please,' said one of the visitors, 'this is a free country, but if you would hear something to your own advantage, listen to my advice.' He thereupon presented two persons, one of whom was a large, portly man of fine presence, and the other a rack of bones, with every symptom of illness and failing. 'See,' said our self-appointed leader, 'the fat man is from Wisconsin where there is good climate and food in abundance; the ill one is from Illinois where the people are fairly consumed by the burning heat of the sun and where they die like flies from swamp fever. Now decide as you think best.'"

"It was a warm summer day and the sun's rays added weight to the man's argument. We perspired copiously under our heavy homemade shirts and contemplated with terror the heat of Illinois, which would

soon transform us into skeletons like the miserable figure standing beside the strong and healthy Wisconsin man. So we held a council and it was unanimously decided that we should build and reside in Wisconsin."

MOVING TROOPS IS MIGHTY TASK

We read of the transportation of troops from the cantonments to the seaboard, preparatory to their embarkation on their overseas voyage to France but how many of us realize how much railroad transportation is required for these transfers? A division of the United States army as now organized consists of approximately 30,000 men—almost as many soldiers as there are men, women and children in Oneida county. An infantry regiment consists of 55 officers, 1,800 men, 177 animals and 22 vehicles and to transport them by rail requires 48 passenger, five baggage, 15 box, nine stock and eight flat cars—a total of 83. A regiment of cavalry consists of 54 officers, 1,254 men, 1,436 animals and 26 vehicles and their transportation requires 36 passenger, eight baggage, 25 box, 72 stock and nine open cars, a total of 150. An artillery regiment and equipment consists of 45 officers, 1,173 men, 1,571 animals, 35 vehicles and 21 cannon and to transport them requires 31 passenger, 10 baggage, 25 box, 78 stock and 47 flat cars, a total of 191.

How many infantry regiments there were at MacArthur, the camp in which the members of Co. I were serving, is not known to the writer but it is known that there are three regiments of artillery there. To transport these artillery regiments, if they were fully equipped with cannon and horses, would alone require about 582 cars. These regiments, however, are to get their cannon upon their arrival in France and therefore the number of cars required for use from Waco to the seaboard will be considerably less than the number above given.

It Generally Does.
Speech was given to man to disguise his thoughts.—Tallyrand.

Youthful Mothers.
Some of the world's notables have been born of parents well over thirty years of age. Conversely great numbers of them were born of youthful mothers. Abraham Lincoln's mother was only twenty-five at the time of his birth. Napoleon the Great was born of parents twenty-three and nineteen years of age, respectively. The mother of Pasteur, undoubtedly the greatest genius France has yet produced, was under thirty, as were the mothers of Herbert Spencer, Michael Faraday and John Stuart Mill.

Preserving Flowers.
A method of preserving the natural colors of flowers consists in dusting salicylic acid on the plants as they lie in the press and removing it with a brush when the flowers are quite dry. Red colors in particular are well preserved by this agent. Another method of applying the same preservative is to use a solution of one part of salicylic in fourteen of alcohol by means of blotting-paper or cotton-wool soaked in it and placed above and below the flowers. Powdered boracic acid yields nearly as good results.

Great Burma Rice Crop.
Burma is the world's largest producer of rice and, though less than a tenth of the crop is exported, even then her exports constitute more than half the rice which comes into international trade. The Burma rice crop averages twenty-eight million tons a year, and upwards of two and one-half million tons are exported.

Feminine Nature.
Feminine nature, fortunately, remains about the same from generation to generation and, while we have no reliable statistics at hand at the moment, we do not believe that the higher education of women has resulted in any appreciable diminution in the world's supply of giggling.—Ohio State Journal.

Embarrassment.
In all probability there is no state of embarrassment more acute than that which is suffered by the bald man who has to sit through a long sermon based on the text: "Even the hairs of your head are numbered."—Philadelphia Inquirer.

FARM LABORERS BEING EXEMPTED

Acting on appeals from the local boards the district exemption board, which passes on all industrial and agricultural claims for exemption from military service, has been placing the skilled farm laborers in deferred classes. Only occasionally are the claims of a few farmers disallowed and the appellants placed in first class. Some young men, who realize that they must remain at home for a period are anxious to go to war, but file their claim on the ground that the farm work cannot be discontinued. Farmers, who have dependent wives and children are most always placed in the fourth class. Farmers, unmarried, who are considered by the board necessary to prosecution of prosperous agricultural enterprises are placed in the second class.

Any classification made by the district board is made on recommendation of the local board, which endeavors to determine whether the claims are worthy of exemption. Any benefit of doubt in the matter of classification is always given to the farmer, as the board recognizes the need of agricultural labor now and in the immediate future. They are also mindful of the fact that production is essential to waging a successful war.

Although agricultural claims are the most frequent, many industrial claims are appealed to the district board. Only men whom the board feel are absolutely necessary employees of essential industrial work can secure a recommendation for exemption. Cases are known where even the recommendation is overruled and the selectman is placed in class one. Railroad men, such as brakemen, switchmen and firemen are practically all being placed in class two because the board realizes that the railroads cannot be crippled, inasmuch as they are now under the control of the government. The majority of the men who are exempted for industrial reasons are either managers or directors of factories or certain branches of the railway service.

You Could'nt Get Any New Farm Machinery Next Year?

What Would You Do?

That's a pretty serious question, and it's one you may have to face because the big farm machinery factories may be taken over by the United States Government to make war material. If they do there may be a serious shortage of farm machinery next year.

THE THING FOR EVERY FARMER TO DO is to order his machines right now. We saved Oneida County farmers quite a sum of money last year by giving them advance information.

The situation is worse this season. We urge you to come now and give us a list of what you will need in the spring and summer. We will guarantee our prices and assure you of getting the machines you need.

WIFE OF FRENCH PREMIER

Madame Clemenceau, wife of the great French prime minister, is a former Wisconsin girl. She was Mary E. Plummer of Durand, Wis., and her brothers still live on farms in the Durand neighborhood. Miss Plummer while a student at a seminary at Stamford, Conn., met Georges Clemenceau, who was then a French tutor at the school, and later married him. That was in 1869. Madame Clemenceau retains her interest in her old Wisconsin home and has frequently visited it.

BADGES FOR EXEMPTS

The administration bill authorizing the secretary of war to provide distinctive badges to men of draft age who have been exempted or rejected was passed on Tuesday by the senate.

FOR STATE REFERENDUM

The anti-saloon league is already preparing for the campaign which will be begun for the obtaining of a legislature which will support a state wide referendum measure. A canvass is being carried on to place candidates friendly to such a bill in the field in every legislative district of the state.

MANAGES LARGE STORE

Thomas Wight, who has charge of the lumber company's large general store in Bass Lake, Langlade county, came home Tuesday to attend the city council meeting. Mr. Wight has an excellent position and is making good. He says Bass Lake is one of the busiest little mill towns in the state.
